

De-Stress With Essential Oils

A Fall 2018 Student Workshop

Essential oils have been around for centuries, and have been used in various cultures. Essential oils are extracted from flowers, leaves, bark, or roots of plants. While it's best to make sure you use pure essential oils, meaning oils that have not been diluted with chemicals or additives, they can provide much needed relief and healing for a variety of ailments, including as a natural aid to help one relax and improve focus. *There will be a relaxation meditation at the end of the workshop.*

When & Where

Thursday, October 25
12:00-1:00 PM

**Women's Resource Center
Mesa Vista 1160**

Workshop Cosponsored by
