## PROJECT RAPTOR: A BRAIN RESEARCH STUDY ABOUT MILITARY SERVICE MEMBERS

**WHO:** We are looking for U.S. service members (Veteran or Active Duty) who were involved in combat operations or support positions stateside or deployed after 2002, between the ages of 18-55, and with or without PTSD.

**WHAT:** Participants will complete questionnaires and receive non-invasive brain scans (MEG & MRI).

**WHY:** To help clinicians and researchers better understand the effects of PTSD on attention and memory. Participants will be compensated for their time

### **Contact Us:**

If you are interested in participating contact us by phone (505) 221-6671 or email [projectraptor@unm.edu](mailto:projectraptor@unm.edu) or complete our pre-screening link online at <https://is.gd/raptorstudy>

*This research is not VA research, will not be conducted by the VA and has not been reviewed by the VA's Institutional Review Board and is not endorsed by VA. VA is not responsible for any costs incurred by a Veteran if the Veteran enters the study as a research subject. This announcement is being provided for information only.*
